

UNWAVERING

he draws his own circles –
artistically free
and still at the very top

He is someone who has never allowed commercialism to clip his wings, and who has always, for over 30 years, continued to open new musical frontiers.

Frank Duval, composer, musical arranger, keyboard player, singer, producer. The Berliner, who made the Spanish island of La Palma his home, belongs to the most creative and versatile sound creators on the international musical scene.

When it comes to making well defined melodies, innovative sound and demanding lyrics blend harmoniously together, there is no one like him. An effectiveness that makes an impression. Duval manages to touch and reach out – as the eagle on the covers of his albums symbolizes. This music is the eagle with powerful wings. It captures, raises, carries away and opens itself to discover.
