

"Frank Duval is without a doubt one of the greatest composers on the international music scene. And a classic! He has an uncanny instinct for an orchestra, and, at the same time, for experimental instruments such as synthesizers. He knows how to insert new sounds, and won't stubbornly stick to his original framework or concept. And most importantly, whatever he writes and sings, I'll believe. He stands behind it, with all his heart. Working with him was great."

"Three times I had the pleasure of playing solo guitar on Frank's CD's. He is a refined, well mannered man and a genial musical arranger, especially if he doesn't have to be involved with the profit sharing and bonus system."
